

EXCAVATOR BRUSH CUTTER

60" EXTREME DUTY

FEATURES INCLUDE

- 1-year warranty
- 1" thick blade carrier
- High torque piston motor
- Cutaway side
- 6" cutting capacity
- Case drain required on the host machine
- Bearing seal protection kit under deck
- Grease-filled drive dramatically improves bearing life and prevents downtime from seal damage
- Host machine must have case drain

This powerful Blue Diamond® Extreme Duty Excavator Brush Cutter is a serious attachment for clearing land! The piston motor will tear through large brush with ease, boasting 40% more torque than geroler/gerotor type motors. The cut-away design allows better access to larger material and keeps grass standing while cutting, leaving a cleaner finish. The three AR400 blades make quick work of brush or grass. Available only in 60" cutting width. Flow range is 22-30 GPM. It is designed to fit 28,000-38,000 lb machines.

PART NUMBER	MODEL	ANGLED WIDTH	WEIGHT
103850	60" Excavator, Extreme Duty, 150CC Piston Motor	22-30 GPM	1,200 lbs*

*Attachment only. Mount weight is additional and varies by machine
