

# POWER RAKE EXTREME DUTY WITH 3 PT. HITCH

The Blue Diamond® Extreme Duty Power Rake for tractors is designed to succeed in conditions where others start failing – structurally and mechanically, and is set up for simple servicing. With the same frame design as our proven Extreme Duty model for skid steers, this unit features a Category 2 hitch and a PTO drive to power the drum. The optional hydraulic angle kit is a great accessory that allows you to angle the unit from the operator’s seat.

## FEATURES INCLUDE

- 4” x 4” square tube frame
- 18 – 26 GPM hydraulic flow, max 4000 PSI
- Optional replaceable teeth versus fixed teeth that require welding to replace
- 1.5” spindle on castors with spacers versus friction adjusters that work loose
- Airless tires – no flats
- 1” front wheel axles versus competitive ¾”
- 1.5” motor shaft and high pressure seals
- 5 position, 20 degree angle, manual or hydraulic
- Optional bolt-on skid shoes add 30% load capacity over side plates alone
- 6 3/4” drum diameter, 10 3/4” including teeth
- Replaceable teeth hardness is HRC 50
- Double struts on the castors

3 PT. HITCH

## TOOTH OPTIONS

- Abrasion resistant (weld-on)
- Hardened Steel (replaceable)
- Carbide-tipped (weld-on)
- Carbide-tipped (replaceable)
