

SEVERE DUTY EXCAVATOR CUTTER

FEATURES INCLUDE

- 1/2" thick deck
- Sturdy deck reinforcements
- Three 3/4" thick blades
- 1" thick serrated blade carrier
- Highly efficient piston motor
- Rear teeth for moving material
- Enclosed motor for protection
- Removable sides to expose blades
- Host machine must have case drain

The Blue Diamond® Severe Duty Excavator Cutter is designed for 38,000 lb to 60,000 lb machines. Weighing in at 2,264 lbs, this cutter is the most durable cutter in its class. It has a 1/2" thick deck and sturdy reinforcements to withstand the toughest applications. The 3/4" thick double sided blades make quick work of trees up to 6" in diameter. A 1" thick blade carrier with a serrated edge keeps the material flowing efficiently under the deck. You can use the rugged teeth on the back to maneuver fallen material.
