

STUMP GRINDER EXTREME DUTY

This tough package has it all! It has the highest torque in its class, it is compact, it cuts forward or in reverse, and it has great visibility! Using an extremely durable piston motor and Greenteeth® setup, the Blue Diamond® Stump Grinder will push through the most demanding applications. A skid steer is limited in its ability to produce hydraulic horsepower, but knowing how to capture every ounce of its ability to maximize performance is the key. Being engineered to cut while moving forward or in reverse sets this machine ahead of its rivals, which are often limited to a single direction. Spend less on fuel! This highly efficient motor can keep your RPMs down in some applications. Spend less time on each stump and increase your profitability. We are sure you will agree that it's worth going with the best!

FEATURES INCLUDE

- High-torque radial piston motor
- Cuts when moving forward and in reverse
- Excellent visibility
- Compact
- No electrical power needed
- Requires case drain line
- 3 standard-flow models and 3 high-flow models

PART NUMBER	MODEL	MOTOR	BEST FLOW	WEIGHT
104110	24" Wheel, Standard Flow	60 CC	16-20 GPM	640 lbs
104120	24" Wheel, Standard Flow	75 CC	20-25 GPM	640 lbs
104130	24" Wheel, Standard Flow	90 CC	25-29 GPM	640 lbs
104210	26" Wheel, High Flow	130 CC	29-33 GPM	720 lbs
104220	26" Wheel, High Flow	150 CC	33-39 GPM	720 lbs
104230	26" Wheel, High Flow	170 CC	39-45 GPM	720 lbs
